Служба: obex.service

Описание: Service Bluetooth OBEX

The screenshot shows a window titled "Службы и процессы systemd" (Systemd Services and Processes). The window has a top bar with "Загрузить" (Load) on the left and "Сохранить" (Save) on the right, both with dropdown arrows. Below the title bar is a tab labeled "Состояние obex.service" (obex.service Status). The main content area is dark gray and displays the following information:

- obex.service - Bluetooth OBEX service
- Loaded: loaded (/usr/lib/systemd/user/obex.service; disabled; vendor preset: enabled)
- Active: **active (running)** since Wed 2024-03-06 09:13:57 +06; 3h 45min ago
- Main PID: 10771
- Tasks: 1 (limit: 19041)
- Memory: 1.8M
- CPU: 10ms
- CGroup: /user.slice/user-1000.slice/user@1000.service/app.slice/obex.service
 - └─10771 /usr/lib/bluetooth/obexd

At the bottom of the window, there is a description: "Описание: Service Bluetooth OBEX". The window includes standard Linux window controls (minimize, maximize, close) in the top right corner and a vertical toolbar on the left with icons for refresh, back, forward, and other navigation functions.
